

Specials Made Standard

Milling aluminum
unlike any other end
mill in the industry.

Aluminator is a premium end mill
line by Breckers Cutting Tools
specifically designed to whisk away
aluminum. Here are the features
and benefits:

- Eliminates the aluminum buildup
and adherence to carbide
- Mirror-like surface finish on
machined parts
- Enhanced tool life
- Proper evacuation of chips

What's in a name?

Our Aluminator line will
allow you to illuminate your
aluminum products with its
ability to dominate the
competition and whisk
away aluminum.

Aluminator
